

Press release 2

1st Multiplier Event in Athens a Success!

We are pleased to report that while the 1st Multiplier Event, the workshop “Migrants and Creative Businesses: A Survey on Skill Gaps and Training Needs”, is over, it was a tremendous success!

On June 4th the workshop hosted by the educational software company Crystal Clear Soft (CCS) in Athens was a great success as it saw a participation of more than 40 stakeholders, social workers, migrants and refugees. The participation of these allowed the project to provide pivotal knowledge and insight into the current social situation of migrants and refugees as well as their competency levels in linguistic, creative/cultural digital, and entrepreneurial skills to those whom it is the most relevant and beneficial.

The information which the project provided for the attendees revealed a considerable gap in various skill levels between migrants/refugees and natives. And while it provided some suggestions for improving the current situation, the participants of the workshop were encouraged and, to our joy, most excited to express their own thoughts and evaluations of the issue and participate in further discussions. Even more so, the participants to the workshop gave strong expressions and indications of a positive attitude to a continuous cooperation and participation to the project.

All the activities were planned and carried out thanks to the valued commitment of the six participating organizations: Crystal Clear Soft (CCS) from Greece leader of the project, Coopération Bancaire pour l’Europe (CBE) from Belgium, Cooperativa Sociale Arnèra from Italy, Žalec Adult Education Centre (UPI) from Slovenia, DOMSPAIN CONSULTING SL from Spain and MATERHAUB from Italy.
