

INCREA's Learning Activity was a great success!

Increa Learning Activity took place in Matera...

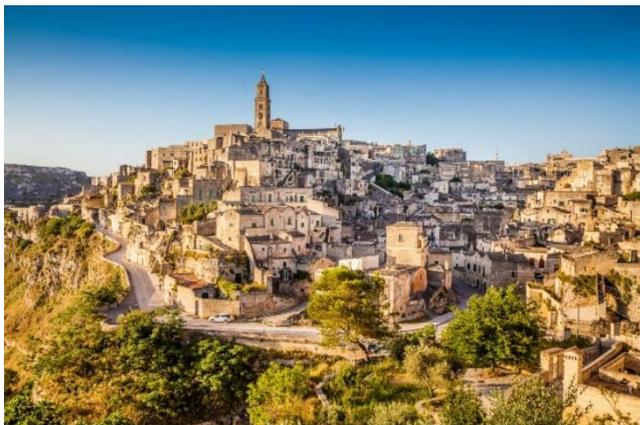

From the 15th to the 17th of July our Partner **MateraHub** hosted the Learning activity of the **INCREA's project**, aiming to support and enhance social inclusion of migrants through creative and cultural industries, filling specific gaps with which the target group interfaces upon their arrival in Europe.

The 3 days event was an opportunity for external trainers, educators, social workers and staff members from partner countries (representatives of Italy, Belgium, Spain, Greece and Slovenia) to test and assess the Project results: Language, Digital and Entrepreneurial training material (IO2), the Manual "From Migrant to creative entrepreneur" (IO3) and the Serious game (IO4) in order to improve the overall quality and coherence of the IO's based on experts inputs and feedbacks.

The 3 days event was an opportunity for

Matera 2019: the European Capital of Cultural Heritage ...

cherishing what we have in common.

Matera, has been selected as **European Capital of Culture 2019** giving the city and the all-region the unique opportunity to organize a series of cultural events with a pronounced pan-European character. Matera, with its extraordinary, centuries-old history and architecture and forward-looking cultural projects, has a strong message to share with the rest of Europe: the importance of understanding and respecting our differences, while

is an excellent example of this bridge culture and cultural heritage can build:

MATERA 2019 OPEN FUTURE

The programme of Matera 2019 has been organized under the motto “Open Future” and with a **special focus on social and cultural inclusion and collaborative innovation**. Visiting Matera and attending some of the cultural events promoted mainly by the European Union initiative was a great opportunity for us to reflect on how we can use our creative resources and our amazing cultural heritage to strengthen our values and build a better Europe for the future, together.

...Make the most of INCREA training

In particular, during these 3 hard-working days, the trainers have evaluated the training courses and the Project Partners adjust the material on the basis of their feedbacks.

The [INCREA Training](#) is now ready to be used and freely accessible in all Partners Language!
